WOODSON'S TRIUMPH

Elected Secretary of the National Democratic Convention.

Taggart, of Indiana, Chosen Chairman Without Opposition.

New York, July 26.—Thomas Taggart, of Indianapolis, was elected Chairman of the Democratic National Committee. The selection was unanimous.

The meeting had not been in session long before this action was taken. All efforts to induce Senator Gorman to take the place failed. Urey Woodson was elected Secretary of the committee. He is editor of two papers, a member of the committee of many years, and widely known throughout the entire country. He was chosen over Charles A. Walsh by a vote of thirty-six to twelve.

An effort was made to elect as assistant secretary, Edwin Sexton, of the District of Columbia, but after discussion the committee decided that Woodson should be free to choose his own assistants.

John I. Martin, of Missouri, was elected sergeant-at-arms, and Samuel Donelson, of Tennessee, elected assistant sergeant-at-arms.

HAGER CHAIRMAN.

State Central and Executive Committees Organize For Fight.

Frankfort, Ky., July 26.—The Democratic state central and executive committee elected Judge S. W. Hager as chairman of the state campaign committee, with Ollie James, John B. Brasher, Henry B. Hines and John M. Lassing as the other members.

Percy Haly was made secretary of the state committee. The following four names are to be sent to the governor for his selection of a state election commissioner: June Gayle, of Owen; C. B. Poyntz of Mason; Dr. John R. Collier, of Louisville, and Ben V. Smith, of Pulaski.

Resolutions congratulating the national democrats on the selections of Parker and Davis, and endorsing the St. Louis platform were adopted. In the matter of the Calloway county committee vacancies the secretary was directed to notify John Keys, the county chairman, to hold an election to fill the vacancies as provided by party law, a motion to appoint the county committeemen instead of electing them being withdrawn.

McQuown, Lassing and Vreeland were made a committee to edit and have printed the party rules.

Appointed Special Agent.

Mr. Howard M. Bolinger, of Pem broke, has been appointed special agent of the L. & N. railroad company. He assumed the duties on yesterday and was assigned work on this division.

Ayer's

Falling hair means weak hair. Then strengthen your hair; feed it with the only hair food, Ayer's Hair Vigor. It checks falling hair, makes the hair

Hair Vigor

grow, completely cures dandruff. And it always restores color to gray hair, all the rich, dark color of early life.

My hair was falling out badly and I was afraid I would lose it all. Then I used Ayer's Hair Vigor. It quickly stopped the falling and made my hair all round again. I am now as well as ever. —MRS. E. A. LITTLE, N. Y.

Solely for **Falling Hair**

TIED FOR TAILEND.

Hopkinsville Has Lost Fourth Place To Vincennes.

Two Straight Defeats To Begin The Series of Home Games.

The series of three games with Vincennes on the local diamond, was begun Tuesday and the visitors have won the first two games. Tuesday Alexander pitched for the locals, but was batted all over the field and five scores made in four innings. Pettifer was then put in and the visitors made only one score off him in five innings. A new man, W. H. Grady, of Trenton, was put in as catcher, as Collins is disabled with a broken finger. The latter part of the game was well played, but the locals were able to secure only 5 scores, although Marr and Moore both made home runs. Whitley and Lemon were the Vincennes battery.

Wednesday's game was a still worse defeat. Bomar and Grady for Hopkinsville and Clayton and Lemon for Vincennes were the batteries. Errors in the first inning enabled Vincennes to make 3 scores and in the fourth they made four more scores. Hopkinsville made only 2 scores and Vincennes wound up with 8. The game was one-sided and uninteresting. The locals seemed to have no heart in the game after the bad start in the first inning. The surprising part was that the visitors made eleven hits off Bomar, who is one of the best pitchers in the league. The Vincennes team contains the champion hitter in the K. I. T., and the strength of the team is in its heavy hitting. The third game was played yesterday afternoon, too late for the result to be given in this issue.

Henderson Today.

Henderson came over from Clarksville for a series of games beginning today. The third game will be either a double-header Saturday, or a Sunday game at Henderson.

The Browns lost the last game of the series Monday, played at Clarksville with the Tennesseans, the score being 3 to 2. It was a ten-inning contest. Weakley, who was batted out of the box Saturday, pitched Monday's game and Hopkinsville only got four hits off him. The Browns, however, lost the game on errors.

Standing of Clubs by July 28.

	P.	W.	L.	P. C.
Paducah	72	46	26	638
Cairo	75	47	28	628
Clarksville	73	36	37	493
Vincennes	72	30	42	416
Hopkinsville	75	31	44	413
Henderson	75	31	44	413

On The Fly.

Paducah and Cairo are having it out in a series of seven games this week. Cairo took the first three.

Hopkinsville's late misfortunes have caused a slump from 459 to 413 and put one game behind Vincennes and tied Henderson for last place. We had a chance yesterday to recover our old place.

Vincennes has won 8 out of 9 of the last games played and moved up more than 100 points in the percentage column.

Zinkins is umpiring with satisfaction to both sides. Shuster still holds on, although Cairo is the only team that wants him.

If President Irving Thompson wants to do the right thing by Paducah why doesn't he get rid of Shuster. This umpire is not tolerated in Hopkinsville because he gave the Hopewoods the rotten end of his decisions. He should at least be suspended until charges of the Paducah managers are investigated.—News-Democrat.

Grady, the new catcher, is doing

FIRE PROTECTION
Guaranteed By the Home Telephone Company.

LAWYERS DEFEAT DOCTORS
Umpire Reed Flobbered and Hauled to Town in a Patrol Wagon.

Paducah, Ky., July 26.—A game of baseball between the doctors and lawyers yesterday afternoon resulted in a score of 19 to 12 in favor of the students of Blackstone. The game was for charity, it netted \$1,000. The ridiculous playing kept the crowd in an uproar from the first inning to the sixth, when according to an understanding, Umpire W. M. Reed, circuit Judge was mobbed and hauled to town in the patrol wagon.

New Alarm System Tested and Given The Exclusive Contract.

The Home Telephone Company announced itself ready with its fire alarm system Wednesday of this week and turned it in a test alarm. It so happened that the company was notified the same day that the Cumberland would take out its instruments August 1, or demand a new contract with the city. The Home system had been adopted, but with the understanding that the change would be delayed until the Home was ready with its system. The notice of the Cumberland, fortunately, came at the right time, and the Home Company was not caught unprepared. The new system, the most complete of any town in Kentucky, is now in working order and after this week fire alarms can only be turned in over the Home 'phones. All that is necessary is to pull No. 5 on any instrument and press the button. That rings the alarm in every fireman's residence, at the police headquarters, fire department, Forbes' "wild cat whistle" engine room and the central office. Central at once notifies all parties of the location of the fire.

The adoption of the Home system exclusively by the city for fire and police protection is a big triumph for the new company. It has issued a new list of 50 subscribers added since July 15, which will be found in today's Kentuckian. The city directory now contains about 550 subscribers, with new names being added every day.

Tammany in Line.
The members of the Democratic National Committee were the guests of Judge Parker at Rosemont Wednesday. Chas. F. Murphy and other prominent Tammany leaders were also present, arriving in advance of the committee. Mr. Murphy before leaving Rosemont spoke hopefully of Democratic success, and declared that New York City would give the national ticket the biggest majority ever known.

Summons Was Sudden.
Cornelia Moore, a much respected colored woman, died suddenly Monday night at her home on Walnut street. Death was due to congestion of the lungs. She was 62 years old and a member of the Methodist church. Deceased was a mother of Ned Turner who is connected with J. R. Hawkins in the grocery business.

Right is reserved to reject any or all bids or to waive formalities.

July 18, 1904.

PROPOSALS.

Sealed proposals are invited for the following work in connection with the two new wings for the Western Kentucky Asylum for Insane, at Hopkinsville, Ky.: The erection of a chimney, the erection of a boiler house and the erection of boilers and heating and ventilating apparatus. Work will be let in separate contracts for each of these three items. Bids will be accompanied by certified check to amount of 5 per cent of bid and will be delivered to Dr. Milton Board, Supt., at the asylum on or before noon Aug. 10th, 1904. Plans and specifications are at the office of Kenneth McDonald and J. F. Shebley, Architects, Louisville, Ky. Right is reserved to reject any or all bids and to waive formalities.

July 18, 1904.

A TOUR OF EDUCATION.

To Old Point Comfort and the Seashore, August 13th.

The personally conducted Excursion to Old Point Comfort, in charge of Mr. W. A. Wilgus, S. P. A., will be run Saturday, August 13th, via the C. & O. Railway, from Hopkinsville, on regular train, connecting with the Seashore Special, leaving Louisville from Union Depot, foot of Seventh street, at 5:00 p. m. The round trip rate to Old Point Comfort is only \$17.15 and the tickets are good until August 27th.

This is the most popular outing offered the traveling public. Grand and beautiful scenery, invigorating mountain air, surf-bathing, ocean voyage, palatial hotel entertainment and a visit to the Capitol. Stop over privileges allowed returning.

Delightful side trips at low rates. Every attention and courtesy will be extended to ladies traveling alone. Choice of routes returning between Richmond and Clifton Forge, will be given. For further particulars and sleeping car space, address W. A. Wilgus, S. P. A., Hopkinsville, Ky., or call on T. E. Bartley.

WORLD'S FAIR

NUGGET WORTH \$200,000.

Finding of the "Welcome Stranger" by Four Men Dying from Exhaustion.

Could even fiction or East side melodrama suggest any situation more romantic?

Figure to yourself, as the French say, four men sinking down exhausted in the arid Australian bush, way back in the "Never-Never" country, where rain does not fall for years at a stretch, and the only plant that forces its way through the choking sand is the dreaded spinifex, or Australian spear grass, whose points pierce the pedestrian like a lance.

They sank down to die, relates the New York Herald. Their horses, too were exhausted, and one of these in stumbling struck its forehead against a small piece of rock that projected a few inches out of the sandy soil.

The eyes of one of the men followed the stumble, and the next moment he had struggled to his feet, shouting: "Gold, gold!" Sure enough, the supposed "rock" struck by the iron-shod hoof glistened in the pitiless sun, and a moment later all four men were digging eagerly with bleeding fingers around the place.

Almost in less time than it takes to tell this unfortunate fellow had unearthed the largest mass of virgin gold that the world has ever seen. This is known as the famous "Welcome Stranger" nugget. It is of the enormous weight of 10,000 ounces, and every ounce of it virgin gold, there being practically no alloy whatever. It is in the shape of a rough cross.

This marvelous find acted as a tonic upon the men and they were enabled to make their way to the nearest township, which chanced to be Ballarat. Here the "Welcome Stranger" was deposited in the bank, and after it was melted down brought at the rate of \$20 an ounce, so fine was the quality of the gold.

JAPAN IS REACTIONARY.

There Has Been of Late a Marked Reversion to Everything That Is Distinctively National.

People in America and England make a serious mistake in imagining Japan to be sitting modestly at the feet of western learning. Within the last decade there has been a decided reaction in Japan, writes Harold Bolce, in Booklover's Magazine. Foreigners in the employ of Japan are rapidly being dispensed with. Recently there has arisen a widespread protest against the romanization of the literature of the country. Roman characters on silver and copper coins have been replaced by ancient Mongolian ideographs. In the upper house of the imperial diet the introduction into the empire of the metric system was opposed, not long ago, on the ground that to admit the need of such an innovation would reflect discredit on the mathematical ability and commercial standards of the nation. There has been a marked reversion to the Japanese dress, a revival of Japanese games, a glorification of Japanese antiquities, and, still more significant, an outspoken conviction that while the west has mechanics and science to give to the east, there is little in its essential civilization that the Japanese want or would accept.

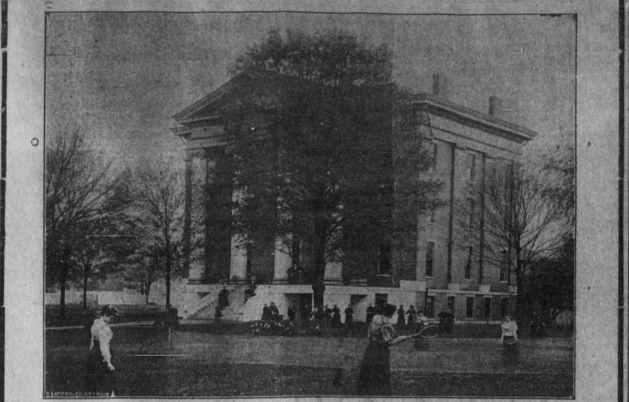

Indian Thieves.

Thieves are curiously classified in a native work published in India. The author divides the robbers into 37 grades, and minutely describes their operations under the most graphic names. Here are a few samples: "The dead child using thief," the "tiger growling imitating thief," the "dreadful strangling thief," the "inconscient and fearless thief," the "lamp light-dimming and snake-producing wick thief," the "dreadful backwater pirate," the "gentle-like pucker," or the wonderful thought-speed traveling thief," the "pillow, portmanteau, bed, bundle and mattress thief," and the "reckless but remarkably tender-hearted and moral-dagger thief."—The Hour Glass.

'Nuff Said.

"Here lies—" carved the maker of tombstones and paused: "It's for the grave of a lawyer," quoth he, "let's let it go at that."—Houston Post.

Don't Do It. It's Dangerous.

We'll admit it will cure malaria, but it leaves almost deadly after effects.

HERBINE

is purely vegetable and absolutely guaranteed to cure malaria, sick headache, biliousness, and all stomach, kidney and liver complaints.

TRY IT TO-DAY.

50 Cents a Bottle. All Druggists.

Pain in Chest Sore Lungs Grip

How easy it is to catch cold! How easily it settles on the lungs, and how often it neglected results in Grip, Pneumonia and Consumption! Many deaths are caused in the beginning by slight cold.

Hamlin's Wizard Oil
will break up a cold on the lungs in a night. It should be applied when the first symptoms appear. Rub the chest with the medicine. Lay upon it a linen cloth wet with Hamlin's Wizard Oil and cover over with flannel bandage. No ordinary cold can withstand this treatment. Apply at night just before retiring and in the morning the cold will be broken up.

Richard W. Thomson, Corp. Col. writes April 15, 1901: "My little girl, aged two years, has suffered more or less with Croup since her birth and finally the trouble became serious. We tried remedies of several kinds but not until we used Hamlin's Wizard Oil did she get cured. A friend of mine recommended grip and grip has become entirely well. I shall never be without Hamlin's Wizard Oil in my house. I cannot recommend it too highly."

There is only one Wizard Oil—Hamlin's—name blown in the bottle. Signature "Hamlin Bros." on wrapper. Take no substitute. 40c and \$1.00.

SUBSTITUTE OPERATORS.

Girl Stenographers Fix Up a Plot to Enhance Their Value to Employers.

Vacation is the theme of general interest at present in the restaurants where stenographers "most do congregate." The following conversation was heard the other day, reports the New York Times, at a Broad street "quick lunch":

Said one fair pounder of the type to her fair-avis:

"I'm looking for a substitute who is absolutely worthless; do you know of a stenographer without a single redeeming quality?"

"Lots; but why?"

"Because," replied the first speaker, "if they get some one who is very rapid and industrious while I'm away it will get them into bad habits. I shall have to keep up with her pace when I get back, don't you see?"

"Well," said the other. "I think I know one who will suit you. She can't take more than 30 words a minute without getting rattled. She's fierce."

"Send her up to-morrow, then, and tell her to ask for \$15 a week."

"Why, she never got more than \$6 a week in her life!" exclaimed the other girl.

"Maybe not, but it won't do for my people to know that they can get their work done for \$6 a week. And, by the way, Mr. Blank says he doesn't care how slow she is so long as she's accurate. So tell her to take him down in longhand if she gets rattled. He is so slow anyway you can draw a picture on every page while he's dictating."

And before they parted they had hatched up a conspiracy by means of which the "fierce" six-dollar-a-week stenographer was to draw \$15 a week for taking Mr. Blank's dictation in longhand.

THE WAR ON FEVER GERMS.

Agencies of Science Are Ever at Variance Upon the Sanitary Question.

The discovery that most of the ills with which mankind is afflicted are germ diseases naturally tends to draw the agencies and resources of science into a united warfare upon bacteria of every description. With the doctor of medicine and student of sanitary science it is a continuous experiment with prophylactics and anti-septics, new and old. The question is, says the Chicago Record Herald, what will kill the germ without killing the person afflicted with it?

Because of the dangerous character of the disease caused by it, the typhus germ has come in for a larger share of the attention of scientists than any other disease germ, with the possible exception of the diphtheria bacillus. As the germ is usually found in water and is taken into the body in this medium, scientific students have sought some method of treating the water in such a way as to destroy the germs without rendering it deleterious or unfit to drink. Lemon juice and grape juice have been recommended, and while it is claimed that they have been found to be efficacious they are not regarded by the medical profession as sure preventives of typhoid.

The Bordeaux mixture has been used for years in spraying fruit trees. The discovery that it can be utilized in exterminating typhoid and other fever germs will be of wide interest to scientific men, and it is certain to lead to much experimentation in this direction.

Got Something New.

No since the early '80s, when the word "electric" leaped into fame with the light, the telephone, and the trolley car, has a newly-discovered term been so popular as radium and its derivatives. Already we have radio cigars, radite soap, radiumite tooth paste, and so on, just as there used to be electric soap, electric polish, electric tooth powder, electric cleaning material, and even electric silk. The properties of the mysterious radium, of course, no more enter into the articles which bear that name, or names allied to it, than soap or silk polish or powder was electrified. Yet the new term, applied even to old and well known known articles, appeals to many people who don't bother to think what it may or may not mean.—Science.

N W Wrinkle in Advertising.

"In Moscow," said Nathan Haskell Dole, the translator of 10,000, "I saw a little child crying miserably one afternoon. He walked slowly down one of the principal streets, and his howl and gestures of despair brought a big crowd around him."

"What is the matter, my child? What troubles you?" everyone asked.

"The boy paused for a moment. He looked at the multitude which he had assembled. Then, lifting up his voice he shouted in a shrill treble:

"I am lost. Will somebody please take me home to Ivan Troubetsky, the champion clothier of the South end, who has just gotten in his new stock of spring overcoats, suits, neckties, shirts, hats and umbrellas, which he will sell cheaper than any one else in the city?"

Cures Blood Poison, Cancers, Ulcers, Eczema, Carbuncles, Etc. Medicine Free.

If you have offensive pimples or eruptions, ulcers on any part of the body, aching bones or joints, falling hair, mucous patches, swollen glands, skin itches and burns, sore lips or gums, eczema, festering sores, sharp, gnawing pains, then you suffer from blood poisoning, the beginning of deadly cancer.

You may be permanently cured by taking Botanic Blood Balm (B. B. B.) made especially to cure the worst blood and skin diseases. It kills the poison in the blood thereby giving a healthy blood supply to the affected parts, heals every sore or ulcer, cures all deadly cancer, stops all aches and pains and reduces all swellings. Botanic Blood Balm cures all malignant blood troubles, such as eczema, scabs and scales, pimples, running sores, carbuncles, scrofula, etc. Especially advised for all obstinate cases that have reached the second or third stage. Druggists, \$1.00.

To prove it cures, sample of Blood Balm sent free and prepaid by writing Blood Balm Co., Atlanta, Ga. Desires to be made and free medical advice sent in sealed letter.

Mrs. Carrie Natvig is reforming Lagrange, Ky. A story comes from Guthrie, Ky., that her stocking is her purse, and that she pulled \$200 from it during her late visit and expressed it to relatives at Topeka, Kansas.

Scared to Death.

Dr. Francis W. McNamara, of Chicago, says: "Millions of people are made wretched every year or perhaps, have their lives shortened by feeling that they have heart disease. They have a pain in that region, and their own diagnosis is sufficient to convince them of the malady. As a matter of truth, there is seldom any pain from heart disease. The trouble is indigestion only. The stomach, lying just under the heart, is distended to a painful degree by gases, and crowding toward the heart, makes the pain seem to be in that organ."

His opinion simply confirms the claim of Dr. W. B. Caldwell, who originated the formula of Syrup Pepsin, the guaranteed cure for indigestion and constipation. All druggists sell it, but be sure to ask for Dr. Caldwell's Syrup Pepsin.

Thirty thousand cotton mill operators are on strike in the Fall River, Mass., district.

Baseball Players and Footracers.

Louis J. Krugers, ex-champion long distance racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1.00 bottle. Sold by R. C. Hardwick.

A general strike of Chicago packing-house employees is on, involving thousands.

Pitney Cowles, member of a thieving gang, was crushed to death at Columbus, Ind.

The Blind May See.

Dr. D. Garfield's Eye Remedy cured hundreds in Tennessee who were nearly blind with sore eyes, granulated eyelids, watering, itching, burning, inflamed eyes, and wild hairs. Many had some of physicians on their eyes; could not see their way; were given up by doctors as incurable after paying out hundreds of dollars. Call or write for free sample, and you will be convinced that you can be cured. No matter how severe your case is, nor of how long standing, address Dr. D. Garfield, 609 1/2 North Summer Street, Nashville, Tennessee.

There are a number of candidates, active and receptive, for the vacant judgeship caused by the tragic death of Judge Upton W. Mur.

Heartily Recommended For Rheumatism.

O. G. H. Ghee, Danville, Ill., writes Dec 2 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can heartily recommend it to all suffering from like affliction." 25c, 50c, \$1.00. Sold by R. C. Hardwick.

As a result of the fighting at Ta Tehe Kiao, the Russians were driven back, and it is believed they will have to retire to Liao Yang.

Indigestion

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles 60c bottle. Sold by R. C. Hardwick.

J. D. Smith, a Paducah painter, was killed by the cars at Mayfield.

Group

is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give five cent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, \$1.00. Sold by R. C. Hardwick.

Two men fought a desperate duel in Colorado.

Hives are a terrible tormentors the little folks, and to some old-timers. Easily cured. Doan's Ointment never fails. Instant relief. Permanent cure. At any drug store 50c.

The New York Herald, the greatest of all the independent papers, has come out for Parker and Davis.

Nashville is to erect a sky-scraper twelve stories high, at the corner of Cherry and Church streets.

President Roosevelt has been notified of his nomination and has agreed to run.

W. C. Whitley left an estate of \$21,334.10, one-third of it in Standard Oil stock.

Judge James Breathitt has been recommended for the Republican member of the State Board of Election Commissioners.

The Japs announce that they are preparing to end the war with a decisive blow. The Russians are in a position where a fight cannot longer be avoided. The Japs are threatening to cut the railroad south of Mukden. In the meantime 50,000 Japs are closing in on Port Arthur.

Secretary Urey Woodson will vote his entire time to campaign work until after the election, being in charge of headquarters in New York city. He has named Edward Sefton, of Washington, as his Assistant Secretary.

The first bloodshed of the Butchers' strike occurred in Chicago Tuesday, when Clarence Hall was killed in a riot. He was a driver in a way concerned in the strike. Two other men were hit by stray bullets.

Urey Woodson's friends are proud of his triumphant entrance into the field of National politics. His election as Secretary of the National Committee is an unsolicited honor that could not have fallen to a more deserving Democrat. He will make a first class secretary.

Tom Taggart, the new chairman of the Democratic Committee is one of the shrewdest practical politicians in the country. He has been the Democratic leader in Indiana for years. He served several terms as Mayor of Indianapolis. He is a native of Ireland, 47 years of age, and is rich.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co.,
Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Cure for catarrh.

Guster Gardner, who murdered Esquire S. D. Osborn and his son, David Osborn, Nov. 23, 1903, was hanged at Munfordsville yesterday, meeting a richly deserved fall. His crime was a cold-blooded assassination, the elder Osborn being shot through a crack in his log cabin and the son killed when he ran outside to investigate. The murderer shot him while he was on his knees begging him not to shoot. Two other men in the house were wounded as they escaped. One of these John Bennett, was Gardner's rival and he went to the Osborn house to kill him.

Renaudo Walco, of San Jose, Costa Rica, walked 6,000 miles to the St. Louis Fair, delayed by a report that the person walking the longest distance to the fair would be paid \$15,000. He started Dec. 27, and reached St. Louis July 7, via Mexico.

W. A. Helm, of Morgantown; E. J. Hobdy, of Franklin, and J. M. Richardson, of Glasgow, are candidates for the Democratic Congressional nomination in the Third District. John S. Rhea has not yet decided whether he will run for re-election.

Judge Parker is to be notified of his nomination at Esopus, August 10, and Mr. Davis will be notified a week later at White Sulphur Springs, W. Va. Neither of them will be taken by surprise.

Editor R. W. Brown, of Louisville, is said to be right in line for Grand Exalted Ruler of the Elks next year.

Gen. Simon Bolivar Buckner has retired from his recent severe illness and is now slowly improving, at his home in Hart county.

Roosevelt wants Root to run for Governor of New York, with a view to becoming his lieutenant in 1908. Mayby Teddy will be in a position to want to try it again himself—after his defeat.

LAST ANSWER

Of The Packers to The Striking Butchers

Chicago, July 28.—The offer of the State Board of arbitration to bring about a settlement of the Chicago strike ended in failure when the final statement of the packers was received declaring that, as far as they were concerned, the original agreement was still in force, and that they were willing to abide by that agreement or continue their present course.

The packers also intimated the vacancies were being rapidly filled and that if the strikers cared to open the matter for arbitration under the old terms there was no time to be lost.

Married Here.

J. J. Teague and Miss L. C. Hartland, of St. Charles, were married at the Hill House in this city Tuesday night. Elder H. D. Smith performed the ceremony. The young people left home to attend the fair at Madisonville and came here from that place.

Big Fair On.

The Hopkins county fair is being held at Madisonville this week. The attendance has been large each day. A special train will be run from city today and tomorrow, leaving here at 8:30 a. m. each day. Returning, this train leaves Madisonville at 6 p. m. and arrives here about 7:30. A large number from Hopkinsville will go down this morning and a much larger crowd will attend to-morrow.

Monday, Aug. 1, at the Court House door, the T. L. Yonts farm will be sold, and anyone wanting a desirable country home, would do well to attend the sale. The farm is well improved and contains 165 acres of good land.

Going to the fair? Don't miss the Harper whisky display in the Agricultural Building—the finest Distillery exhibit in St. Louis. Harper is sold by W. R. Long, Hopkinsville, Ky.

Corley-Johnson.

Lloyd Corley and Miss Zada B. Johnson, of near Haley's Mill, were married Tuesday night.

Special Session.

A special session of the fiscal court has been called for August 6.

Tradedwater Notes.

Tradewater, Ky., July 25.—Old Uncle Noah Orton died at his home on Sandlick Creek, three miles south of Clardy, last Monday. He was about 85 years old and had been in failing health for several years. But worn out with the cares of a long and somewhat checkered life he had been rapidly sinking for about a month, and his death Monday was by no means a surprise to his friends.

He came to this county from East Tennessee fourteen years ago and settled on the farm where he died. He is survived by several grown children, all of whom have families except his son, Noah B., with whom he lived. He was a brother of the late Chas. Orton, who died at Macedonia several years ago, and of the late Susan Roberts, who lived near Empire, and a half brother of Esq. Jas. Orton, of near Clardy. He had been a member of the Christian church from his early manhood and was a good citizen and a Christian gentleman. His remains were laid to rest at Castleberry church Tuesday.

While the copious rains of the last two weeks have greatly retarded wheat threshing, the growing crops have been greatly improved in some sections where continued drought had prevailed. Prospects for a good crop of corn and tobacco are very flattering at this writing.

Our old time friend, John Roberts, of Wilson Station, Tenn., returned to his home last Tuesday, after a visit of two weeks among relatives in this county. Mr. Ezell White, who came with him, will remain for some time. CY KLOKE.

WHEAT STATISTICS.

All Farmers Raising 3,000 or More bushels Please Report.

All farmers of Christian county who this season raised 3,000 or more bushels of wheat are requested to report the same, with number of bushels threshed, to this office as soon as possible. It is desired to secure a list of the leading wheat growers of Christian county. If you wish to add any further information about the variety of wheat raised, the yield per acre, or price sold for, it will make the information all the more interesting.

Please call this item to the attention of your neighbors who may fail to see it.

Rhinoc Sustained.

The Democratic State Central Committee met at Covington and declared Joseph L. Rhinoc the nominee for Congress in the Sixth district, the contestant, Judge Hodges, not appearing. It was decided that the primaries called in Nelson and Menifee counties should stand, as the law was not understood when the calls were made.

Secretary Corley claims 20 states as certain for Roosevelt, with 267 votes, or 28 more than enough to elect. In his list he places Colorado, Connecticut, Delaware, Illinois, Indiana, Maryland, Montana, Nevada, Rhode Island and Wyoming with 108 votes, at least half of which will go for Parker. He concedes New York to be doubtful.

No More Assaults.

President Irwin Thompson and other officers of the K. I. T. League have concluded to give the umpires every protection. They will not tolerate any more of the rowdism that culminates in attacks on the umpire, who is employed to umpire games and who is to be respected and obeyed as long as he is employed by the league.

President Thompson investigated the assault on Umpire Shuster at Cairo by pitcher Doll of the Clarksville team, and fined him \$25 and suspended him for an indefinite period. President Thompson announced further that the next player who assaulted an umpire will be fined and put out of the business permanently, and the association or club to which he belongs will be held jointly responsible.—Paducah Register.

The Blind May See.

Dr. D. Garfinkle's Eye Remedy cured hundreds of Tennessee who were nearly blind with sore, granulated eyelids, watering, itching, burning, inflamed eyes, and wild hairs. Many had scums or pterygia on their eyes; could not see their way; were given up by doctors as incurable after paying out hundreds of dollars. Call or write for free sample, and you will be convinced that you can be cured. No matter how severe your case is, not of how long standing, address Dr. D. Garfinkle, 609 North Summer Street, Nashville, Tennessee.

Herdson Notes.

Herdson, July 27.—Miss Nannie Major, of Hopkinsville, is visiting Miss Mattie Major.

Misses Agnes Pursley of Hopkinsville, and Myrtle Jones, of Gracely, are guests of the Misses Faulkner. Miss Edna Thomas, of Bennettsville, spent Tuesday night with Miss Jessie Anderson.

Mrs. G. E. Dawson and Miss Bettie Dawson, of Pee Dee, were in our town Tuesday.

Miss Mary Lou Pace, of Mason's Mill, is the guest of Mrs. Calvin Fleming.

Messrs. Major White, of Nashville, and George Young, of Louisville, are guests here this week.

Miss Zella Dawson, of Lafayette, is the guest of Miss Myrtle Dawson this week.

Mr. Earl Gates, of Kirkmansville, spent Tuesday night with Dr. E. L. Gates.

The most enjoyable social event of the season was the moonlight picnic at Mr. W. K. Faulkner's Tuesday night. It was one of the annual picnics, given each year to celebrate Mr. Faulkner's birthday. This one was attended by a large and delighted crowd, who departed at a late hour, declaring themselves willing to come again the 26th of July, 1905, and bring their friends.

Howell Notes.

Howell, July 27.
Mr. and Mrs. T. B. Caldwell are rejoicing over the arrival of a fine boy.

Miss Edna Adams, of Church Hill, has returned home, accompanied by Miss Emma Sively, who will visit her for a few days.

Mr. Grayson Lyle and Master Henry Coleman spent a few days in St. Louis seeing the World's Fair last week.

Mrs. D. C. Keatts and her two daughters, Miss Eunice and Mrs. M. Wilson, are visiting at Dawson Springs for several days.

Miss Thursa Lowry, of Garrettsburg, will visit Miss Lula Earle soon.

Miss Jessie Embry and little Mary Fox Clardy are visiting in Gracely.

Miss Wicks, of Paducah, is visiting Miss Lillian Giles, also Prof. Welch of Cumberland City, Tenn., is spending a few days with his old pupils Mr. Howard and Miss Erlene Giles.

SAXONY.

Jailed On Ugly Charge.
Madisonville, Ky., July 26.—Brakeman O. C. Brownell, of the Illinois Central Railroad, is in jail at Paducah, on complaint of Cordie Greer, a 14-year-old girl who lives at Hamby Station. The girl alleges that while she was a passenger on a train on which Brownell was working he begged her to go with him to Paducah and he would take her to the opera and to other amusements. She went, and when the train reached the bridge she was told to get off, and he took her to a secluded spot and attempted to assault her. Later, while they were walking the streets of Paducah, he was arrested. The girl was sent home. Brownell is 30 years old and has a wife and children, and claims that he was trying to protect the girl from some show people with whom she was.

Estray Cow.

Taken up as a stray, July 21, a Jersey milk cow, back and sides fawn color; hams, head and neck black. Short horns, one horn longer than other. Calved since getting in my field. Very fine cow. Owner can get information by calling at this office and paying for her care and this advertisement.

PRICES ON LEAF

Higher On Local Market Than For Some Weeks.

Leaf tobacco on the loose floor was higher this week than it has been for six months past. Lugs ranged about the same. R. M. Woodbridge & Co., sold about 250,000 pounds. The following quotations, fairly represent the loose market: Trash, \$2 to 2.25; lugs, \$2.20 to 3.25; common leaf, \$3.25 to 3.50; medium leaf, \$3.50 to 4.75; good leaf, \$5 to 7.25.

Personal Gossip.

Mr. W. T. Cooper is in St. Louis. Mr. John Young is at French Lick. Mrs. M. G. Rust is still very ill at her home on South Main street. Mr. J. D. Ware is at home from Dawson.

Mr. and Mrs. Jas. B. Garnett, of Cadiz, were in town a Wednesday.

Mr. Jas. A. Radford left for Houston, Texas, yesterday.

Dr. R. R. Bourne is back from French Lick Springs.

Mr. and Mrs. J. T. Hanberry are in St. Louis attending the fair.

Mrs. E. J. Dunbar, of Louisville, is visiting in the city.

Mr. A. J. Meador and wife have returned from Cereulean.

Miss Mildred Hubbard has gone to Memphis to visit Mrs. J. Nick Thomas.

Miss Hazel Everett has gone to Nashville to visit the family of Mr. James M. Howe.

Mrs. M. T. Bartley and sister, Miss Fannie Hayden, are visiting relatives in Princeton.

Misses Ole and Ole Childress are visiting Misses Esther and Hattie Lacy in the city.

Here and There.

Ten Hopkinsville men have gone to St. Louis to take the places of strikers in Armour & Co's packing house. They get \$2.00 a day and board. Those who went were Frank Southall, Jas. Bradley, C. W. Perkins, A. L. Weaver, Wm. Barnes, Clay Thomas, Ed Robinson, Haynes Shackelford, Wm. and Mike Hayes.

The Ice Cream Social given by the ladies of St. Peter and Paul's Church, Tuesday night, swelled the church building fund by the splendid sum of \$97.11. This amount is the net proceeds. The congregation with its Pastor, Father Walsh, extend their sincere thanks to all those good friends who, united with them to render the social a grand success.

Dr. E. N. Fruit, Dentist, office over City Bank, Hopkinsville, Ky. Buy your furniture of the Star Furniture Company. Home telephone No. 1297.

The Yonts farm of 165 acres, near Julien, is an excellent body of land. It will be sold by the Master Commissioner, August 1.

Registered Berkshire and Duroc Hogs for sale by M. B. King, Hopkinsville, Ky. R. F. D. No. 4. Phone 340-3.

If you want to buy a good farm, attend the sale of the Yonts farm, at the Court House, first Monday in August.

C. H. Layne is back in the livery business, at Layne & Moseley's stand on 9th street. First class rigs at any time. Feed and sale stable in connection.

STOLEN—Lewellyn setter, white, with liver colored spots. Return to Bethel Female College and get reward.

Edmund Harrison.

Those desiring life insurance will find it to their interest to investigate the plans and record of the Mutual Benefit Life Insurance Company of Newark, N. J. No stockholders. All profits divided among policy holders. It is conspicuous for economical management, liberality of its policy contract, fair dealing with its members and large annual dividends to reduce cost of your insurance.

WALLACE & MOORE, Agents.

Col. Noel Gaines has selected the West Point camp site in the World's Fair grounds for the annual encampment of the Kentucky State Guards.

Judge Parker has declined the invitation of Mayor Harrison to attend the proposed big Democratic rally in Chicago.

Miss Lottie McDaniel and Mary Walker took a picnic party of children to Campbell's cave yesterday for an outing in the woods. They went in a wagon and made a merry party of a dozen or more.

PELVIC CATARRH CURED.

General Health Greatly Improved by Pe-ru-na.

MRS. E. VON STENAU.

Mrs. E. Von Stenau, 25 Fifth street, Milwaukee, Wis., writes:

"I have been a sufferer for years with female trouble, causing backache and at times terrible headache. I had also complications from indigestion and heart trouble, so that I often had to lie down. I took six bottles of Peruna. I was then in perfect health, was regular, had no more headaches, in fact, my health is now all that I could wish."—Mrs. E. Von Stenau.

Kidney Trouble Cured.

Mrs. M. J. Danley, Treasurer of the Rebecca Lodge, I. O. O. F., writes from 124 First street, N. Minneapolis, Minn.: "I was afflicted for several years with kidney trouble which became quite serious and caused me considerable anxiety. I spent hundreds of dollars trying to be cured, but nothing gave me any permanent relief until I tried Peruna. It took less than three months and only ten bottles to effect a permanent cure."—Mrs. M. J. Danley.

Address The Peruna Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. D. Hartman.

HALL'S Hair Renewer

A high-class preparation for the hair. Keeps the hair soft and glossy and prevents splitting at the ends. Cures dandruff and always restores color to gray hair.

ANDERSON'S CUT SALE

~~~~~BEGINS~~~~~

# TUESDAY, AUG. 2.

With the memory of the monster success of our June sale, and the fact that wheat is now selling around a dollar, we are impressed with the idea that this will be the biggest year in the history of our business. Loosing sight of all profit, spurred on with the desire to increase the volume of sales, we will on next Tuesday, August 2nd, begin a cut sale in every department of this "Big Store" with prices that will be of the uttermost astonishment to you. We quote a few prices below and refer you to our "Bargain Sheet," which will be at your postoffice to-day. Sale begins Tuesday, August 2nd, and continues 15 days.

## The Pretty Summer Fabrics

THE fashion of piping, gauging and mending is splendidly adapted to this summer fabric and more especially to muslins. Nothing was more unthoughtful than the serpent skin shirt of some few seasons ago in muslin. A great many people looked extremely well in these light draperies, but they certainly require to be arranged in more substantial material.

Very different are our modes of today, and the quaint old delaines and patterned muslins are delightful made up with piping, ruchings and platings, the full gauged skirt hanging in graceful folds from waist to feet, the pouched bodice, the elbow sleeves and long shoulder, surmounted by the simple picture hat. Look, too, at the hundred and one dainty little accessories you can add to your muslin frock!

I will tell you of some quaint and simple muslin gowns suitable for the debutante's wear. One in cream, piped and spotted muslin, the skirt of which is gauged in at the waist and then inserted with plaited muslin edged on either side with tiny ruchings of blue beige ribbon.

These insertions become fuller and wider as they near the feet, finishing at last in a mass of billowy frills; as the wearer lifts her frock one catches glimpses of a much-befouled and green petticoat. The bodice fastens at the back, and is adorned with a scroll pattern of plaited muslin edged with the beige ribbon ruching; above this is a deep yoke shaped emplacement of purest white dentelle irlandaise, lined only with

brown chiffon voile, the underdress of which is cut on Princess, with a series of gaugings, fitting in, cuirass fashion, to the figure, with a wide box plait right down the front. The gauging gives the necessary fullness and flow to the apparently simple skirt, and one of the newest effects is arrived at by the souave of brown taffeta, with orange and blue velvet straps. The sleeves, you will observe, reach only to the elbow (as is the case now with all the smartest Parisian toilettes), and are finished by gaugings of chiffon, and plisse frills of the same. This toilette is completed by an en tout cas of brown, with an orange and blue border. The hat, of brown chip, has a simple band of blue velvet and a

coming shade to the face, and trimmed with a single white rose and narrow strings of black velvet hanging down at the back. The simplicity of this toilette is very striking and shows what lovely effects can be arrived at with hand-painted muslins.

## Evening and Fete Gowns

ARIS—Taffeta changeante and shaded chiffons are two very noticeable features of this season's fashions. Some of the embroideries are so lovely that it is not surprising that opera cloaks and evening dresses are especially charming this season. Many kinds of trimming are made of shaded panne and velvet leaves applique on to lace.

Sumptuous dressing is the order of the day, for we have veritably returned to the styles in vogue in the days of the French empire. We see how little the heart of woman has changed when it comes to a question of beautiful clothes as displayed in the leading ateliers of the Rue de la Paix. It seems to me that neither English, French nor American women are in the least considering the cost of their best frocks, by which I mean the toilette de reception and the evening gown. They do, however, affect a delightfully chic simplicity in the wearing of linens and white serge for the mornings, but their evening toilettes are really splendid creations.

I will tell you now of a simple evening gown worn by a well-known debutante. It is composed of white silk muslin, gauged in at the waist, and finished down the front by quilt little ruches of white taffeta, a thicker ruching also appears at the feet, headed by a narrow border of pearl trimming. The beige bodice is trimmed with ruchings of silk, and the décolletage is outlined with the pearl trimming, which rests on the neck. The sleeves are nothing more than simple Victorian puffs, and round the waist is a very wide sash of Roman blue satin.

There is, without doubt, a growing fancy for green in beautiful soft shades. Conquering emeralds are gaining in favor, and we also see other curious green tints. Jewels are mostly in L. X. V. settings, varied by wonderful oriental stones and very fine specimens of Italian enamel. We Parisians are great admirers of Italian art; and many of the newest models of tea gowns are sufficiently similar to this.

Enamel work is much used in parasol handles, some of which are very quaint and pretty. We are fastidious in trifles of this kind, and do not care for over-elaborations. A handle of three well-blended enamels is an adequate finish to a plain colored parasol or en-tout-cas. The sketch is of two pretty summer outdoor toilettes, suitable for fete or race occasions. A very notable costume is that on the right, composed of

chiffon. The elbow sleeves are finished with ruchings and platings. This is to be worn with an enormous picture hat of leghorn, the only trimming on which will be a band of black velvet and two huge cabbage roses with their own foliage.

A touch of black will also be introduced in the parasol, which is of gauged black chiffon lined with pale pink.

Such a frock as this would be charming at London's big garden party.

A lovely example of the painted muslin gown is in pale pink, with a pompadour design of rings of deep red roses and foliage painted thereon. The frock appears to be cut all in one, and is gauged from several inches above the waist to about three inches below it. The hip pieces are cut open and inserted with tiny tucks or box plaits, which give the necessary amount of fulness to the long skirt, which is finished with two enormously thick ruches of taffeta changeante taking in various shades of pink and green. Some smaller ruches of the same fabric are arranged over the yoke and shoulder to give a pelerine effect, and the elbow sleeves are finished with soft gaugings and frills, worn with long moustiquette gloves.

Such a frock as this would be charming at London's big garden party.

TWO PRETTY FETE GOWNS.

bright orange Paradis plume shading into yellows, browns and blues.

Most ethereal is the toilette worn by the lady on the left; this is suitable for a hot July day, being a delicate blue sole-de-Chine, with insertions and flimsy flounces of blonde lace edging the box-plaited frills of sole-de-Chine. The bodice consists of delicate and strappings of the sole-de-Chine, the sleeves being finished with great folded pieces of pale blue chiffon and touches of black velvet. The hat is of blue chip, veiled with blonde lace, and adorned with a huge cabbage rose and green foliage. Last, but not least, note the parasol, of pale blue chiffon, with deep puffs of shaded blue chiffon.

ANNETTE GIVRY.

## Restored to Good Health.

A woman born blind never appreciates the real loss of sight. A woman who has been an invalid all her life does not fully realize the loss she sustains. But a young woman in the very springtime of life who loses her health knows to the full her own deprivation. Dreams of home and husband all vanish when the shadow of womanly ill-health falls across them. It is no wonder then that a woman is glad to praise Dr. Pierce's Favorite Prescription when it has been the means of restoring her to good health. Thousands of women offer this tribute of praise to "Favorite Prescription," which has cured them of headache, backache, nervousness, sleeplessness, etc., by curing the womanly diseases which cause these ailments—irregularity, debilitating drains, inflammation, ulceration and female weakness.

"I have taken six bottles of Dr. Pierce's Favorite Prescription," writes Miss M. Pye, of Collis, Simcox Co., Ontario, "and two bottles of the 'Pleasant Pellets' as you advised for congestion of uterus, ovaries and weakness, and can safely say that your medicine has been the means of restoring me to good health again, which I had not had for over three years until taking your medicine. I thank you very much for kind and prompt attention to my letter asking advice."

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The People's Common Sense Medical Advisor, paper covers, is sent free on receipt of 27 cent stamp to any express or mailing ONLY. Address Dr. R. V. Pierce, Buffalo, N. Y.

### V. F. C. A. Growth in Kentucky.

A resume of the growth and de-  
velopment of the Young Men's  
Christian Association work in Ken-  
tucky for the past three years, un-  
der the supervision of the State  
Executive Committee, has been sent  
to the International Committee, and  
will appear in the Year Book of  
1904. It contains the following  
information:

During the past three years the  
growth of the various departments  
of work in the State-city, railroad,  
student and county-has been not-  
able, and has been especially char-  
acterized by a broader vision of the  
field to be occupied by each Asso-  
ciation, and by a more systematic  
and aggressive occupancy of the  
fields in which work is being done.  
This period witnessed the Jubilee  
of the Association work in Kentucky,  
commemorating the semi-centennial  
of the organization of the first As-  
sociation in the State, and of the  
quarter-centennial of the organiza-  
tion of the State work. 551 dele-  
gates attended the Jubilee Con-  
vention at Lexington, the largest As-  
sociation Convention (State or In-  
ternational) ever held in the South.

There are now 74 Associations in  
the State. Ten of these are city,  
seven railroad, twenty-seven stu-  
dent, and thirty town. Fifty-one  
secretaries are employed. Two  
assistants have been added to the  
secretarial force of the State Com-  
mittee, which is as follows: State  
Secretary, Secretary City and Rail-  
road Department, Secretary Re-  
ligious and Educational Work De-  
partment, Secretary Student De-  
partment and two Secretaries of  
the County Work Department.  
With this report, the State Sec-  
retary, Mr. Henry E. Rosewater, com-  
pletes fifteen years of service in the  
State.

### ACT QUICKLY.

Delay Has Been Dangerous in  
Hopkinsville.

Do the right thing at the right  
time.

Act quickly in times of danger.  
Backache is kidney danger.  
Doan's Kidney Pills act quickly.  
Cure all distressing, dangerous  
kidney ills.

Plenty of evidence to prove this.  
Mrs. O. P. Lewis wife of O. P.  
Lewis blacksmith and general re-  
pairer living at 508 N. Virginia St.,  
says: "Acting upon the advice of  
friends I procured a box of Doan's  
Kidney Pills at Thomas & Sec-  
her's drug store and tried them  
for kidney complaint from which I  
had been a constant sufferer for a  
long time past. My back had been  
in such condition that it was the  
greatest distress for me to stoop or  
lift anything but I had taken only a  
few doses of the pills when I felt  
greatly bettered. The kidneys were  
strengthened and the aching in  
my back relieved. My daughter  
Mrs. Wm. J. Tobin who complained  
a great deal of her back used Doan's  
Kidney Pills and was similarly ben-  
efited. I take pleasure in recom-  
mending this remedy to others."

For sale by all dealers. Price  
\$1.00 per bottle. Foster-McBarn Co.,  
Buffalo, N. Y., sole agents for the  
United States.

Remember the name-Doan's-  
and take no substitute.

A German merchant ship was  
stopped and searched by a Russian  
warship in the Gulf of Finland.

### Be Cheerful.

If you are troubled with consti-  
pation, indigestion and malaria, get a  
50c or \$1.00 bottle of Dr. Caldwell's  
(Laxative) Syrup Pepsin. It is  
guaranteed to cure you.

Walter B. Wallace, a railroad  
man, committed suicide in a hotel at  
Birmingham, Ala.

Russian warships are reported to  
have sunk two Japanese schoon-  
ers.

**LAX-FOS** For the Kidney's,  
Liver and Stomach.

Fine Farm to be Sold.

On August 15th, 1904, at 11 o'clock  
a. m., in front of the court house  
door, in Hopkinsville, Ky., I shall  
expose for sale at public outcry, to  
the highest and best bidder, the  
farm known as the 'Old John Fer-  
guson place,' belonging to the  
estate of the late Martha Ferguson.

Said farm contains 277 acres, is  
situated one mile south of Herndon,  
Ky., on the Dover road, is well  
fenced with wire, excellently wa-  
tered, would make fine stock farm;  
60 acres in timber; buildings in  
good repair, consisting of 2-story  
6-room house, two cabins, new  
stable, and good barn.

Terms of Sale-One-third cash,  
balance on ample time.

CLYDE LONG, ATTY.

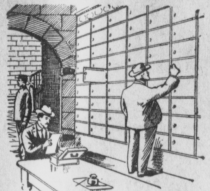

### A Righteous Pardon.

Nancy May, a young Kentucky  
woman, was recently sentenced to  
ten years in the penitentiary for  
killing her husband's paramour.  
The crime was committed when she  
was suffering from a form of mania  
incident to pregnancy. A pardon  
was at once asked for her every  
juror, every officer of the court and  
all the best citizens of her coun-  
try joining in the request. In  
granting the pardon acting Gov-  
nor Thorne said:

"There is a certain sentiment  
in Kentucky called unwritten law  
which has prevailed in many cases  
under my observation as a prac-  
ticing lawyer, when men have been  
acquitted by Judges and juries in  
similar cases to this, which were  
met with applause. But in this  
case when a poor, frail little woman  
committed this crime, a jury gave  
her ten years, and sends her and  
her babies to the penitentiary. In  
such a case the jury should have  
acquitted her instead of convicting  
her and throwing the responsibility  
upon the executive. As it is,  
I might, under certain conditions  
allow this woman to go to prison  
to suffer for the great crime she  
has committed. But to send these  
babies to the penitentiary or sepa-  
rate them from their mother and  
incarcerate her for ten years, I  
have not the heart to do. She is par-  
doned with the injunction, Go and  
sin no more."

"Equality before the law" is  
what the Kentucky Equal Rights  
association is trying to  
obtain for women. The application  
to this poor woman's case of that  
unwritten law which has shielded  
so many men is an act that entitles  
Governor Thorne to the respect and  
gratitude of every lover of fair  
play.

Lida Calvert Obenchain,  
Sup't Press Work, Ky. E. R. A.

### Safety Deposit Boxes to Rent

In our burglar and fire proof  
vaults. At nominal cost private in-  
dividuals or business men can put  
their important papers and val-  
uables in a secure and convenient  
place.

This is a boon to those who do  
not possess a safe and to families  
traveling. These boxes are ac-  
cessible during all business hours  
to the renter, who holds the key.

## OLD TIME Fiddlers' Contest at Crofton, Ky.

Saturday Evening, August 6th.

Handsome Prizes Will Be Awarded

Successful Contestants.

## 30 -- Fiddlers -- 30

Will participate. An interesting program,  
consisting of forty numbers has been pre-  
pared for the occasion. Get your tickets at  
once, thus securing choice of seats. Tickets  
now on sale at Crofton.

**JOHN H. MYERS, Gen. Mgr.**

## The State College of Kentucky, LEXINGTON, KENTUCKY.

The Agricultural and Mechanical (State) College of Kentucky offers the following courses of  
study, viz: Agricultural, horticultural, chemical, biological, mathematical, physical, manual  
school, classical, mechanical engineering, electrical engineering, civil engineering, mining, Engi-  
neering, each of which extends over four years and leads to a degree. Each course of study is  
organized under faculty general. The faculty number nearly fifty professors and instructors.

County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain  
traveling expenses.  
The laboratories and museums are large, well equipped, comprehensive and modern.  
The State College of Kentucky, though having historic heritages of science, is the only in-  
stitution in the Commonwealth doing in any proper sense university work.

The completion of this afforded to them of a thorough education in classics, modern lan-  
guages, literature, science, mathematics, logic, metaphysics, history and political economy. No  
other institution in the State offers advantages for education of women at all comparable to those  
granted by the State College of Kentucky.

For catalogue, method of obtaining appointments, information regarding courses of study,  
and terms of admission, apply to

Jas. K. Patterson, Ph. D. L. L. D.

Or to D. C. FRAZEE, Business Agent, Lexington, Ky.

Fall Term Begins Sept. 5th, 1904.

Gold and Silver Mining Co.

### NO COMPETITION.

There is no competition in mining, everyone has the same opportunity, and courage to grasp it is indispensable to success.

Mining stock is the safest investment today, because it is not subject to a variable market. The product of mines has a standard price the world over, and a market that cannot be glutted.

Dividends of banks and railroads are affected by the prosperity of a country or a corresponding depression.

But through good times and bad times alike a mine keeps on mining, milling and refining.

The time to buy mining stock and get the largest return for the investment, is when the company is selling its first issue of treasury stock. That stock will surely increase in value as development work proceeds; and it is an easy matter to point to hundreds of companies engaged in active mining operations, to own \$1,000 of whose stock would mean a regular income of no small amount. It was in buying shares at a low price, in promising times, that many of the world's wealthiest men made their millions.

### DIVIDENDS OF MINING COMPANIES COMPARED WITH BANKS.

The greater part of the great fortunes in this country were started from investments in mines, and in this connection some figures printed in the National Banker, under date of August 29, 1903, are interesting:

From the time of discovery to 1903, the United States has pro-

duced \$2,360,000,000 in gold, Mexico at least \$181,000,000 and probably twice as much, and British North America \$142,000,000.

The dividends paid by gold and silver mines are greater than the dividends paid by all the banks in this country, and the dividends paid by copper mines are greater than the dividends in the country.

There certainly are good gold and silver mines yet in this country, and the new cyanide process for treating low-grade ores has made it possible to treat gold and silver ore which was formerly passed over as worthless, at a good profit. In summing up the situation we believe that if an investor is reasonably sure that the people connected with a mining company are honest, that the money invested will be used for the purpose specified, and that the management will be conservative, he may feel that he has a reasonable chance to get a good return on his investment.

MINING INVESTMENTS PROFITABLE

Less money is lost proportionately in mining, says Cecil Rhodes than in any other business in the world, and larger fortunes are made in investments of mining stocks than in any other business on earth.

good mining stock will pay the investor more easily 20, 30, 40 and 100 per cent. annually than municipal bonds, railroad bonds and stock or government bonds can possibly pay 5 per cent. Money invested in a good mining stock is safer than in a bank, than in mortgages, railroad securities, municipal or government bonds.

The security of good mining stock is the raw material of money itself; it is the "staff" at whose feet governments, cities, banks, railroads, mortgages, land corporations and all forms of business kneel.

These are remarkably strong words, and yet we believe they are true. Of course, many people will assert that mining is a failure; that for every dollar taken out of the ground two dollars have been put back. All of which, however, we most respectfully deny. Imprecious metal mining did not yield results no one would engage in it. And, further than that, its rewards must be extraordinary rich, because men are willing to take large chances, assume hazardous risks in order to secure them. There are more mining kings than railroad kings. While mining has made millionaires and multi-millionaires, it has also produced a class of thrifty, independent men whose fortunes might not be counted much in comparison with the Clarks and others, but who are, nevertheless, the very best evidence of the profit in mining.

### VALUABLE INFORMATION

"As the masses become more educated and in conversant with the laws which govern trade, and in-

creased \$2,360,000,000 in gold, Mexico at least \$181,000,000 and probably twice as much, and British North America \$142,000,000.

The dividends paid by gold and silver mines are greater than the dividends paid by all the banks in this country, and the dividends paid by copper mines are greater than the dividends in the country.

There certainly are good gold and silver mines yet in this country, and the new cyanide process for treating low-grade ores has made it possible to treat gold and silver ore which was formerly passed over as worthless, at a good profit. In summing up the situation we believe that if an investor is reasonably sure that the people connected with a mining company are honest, that the money invested will be used for the purpose specified, and that the management will be conservative, he may feel that he has a reasonable chance to get a good return on his investment.

MINING INVESTMENTS PROFITABLE

Less money is lost proportionately in mining, says Cecil Rhodes than in any other business in the world, and larger fortunes are made in investments of mining stocks than in any other business on earth.

dependent class, if not actually among the wealthy class. Why is this? Because the investor has done with his money what the banker does with the depositor—placed it where it would earn the most money in the shortest time. There are bankers in every state who have invested heavily in mining, but who would pouch the idea of similar investment if consulted by one of their depositors. There is food for serious thought here.

"But the people are thinking, and the more they think about investments of a safe and profitable nature the more money enters into the business of mining.

"It is no longer tenable to assert that mining is a gamble. Real mining is a safer business than any other we can think of, and is certainly more profitable. Men who have made their millions from mining investments are scattered all over the land and are living evidences of that fact."

### WONDERFUL TRANSFORMATION.

Taking into consideration the enormous capital invested, the number of people employed and the immediate returns in money and profit, mining for the precious metals is the leading industry. The record of results has been that of steady increase from the first discovery of 1859 to the present day. But fact and figures representing merely the annual increases of production, eloquent and definite as they are, do not convey an adequate idea of the importance of the industry under the new conditions into which it has grown. The past five years has witnessed a wonderful transformation, and progress has been made by leaps and bounds. A detailed statement of these conditions would involve a review of operations in the forty-five mining counties of the State, and a history of the several great mining camps since the time when the miner turned his efforts from the bonanzas of silver to the richer fields of gold. But this enchanting and fascinating subject would fill an entire volume.

For stock in the great Alpine mine and milling company, at a bargain, call on Walter F. Garrett and Co., Fiscal Agents, Hopkinsville, Ky.

### DECISIVE BATTLE

Is About to be Fought to Settle the War.

Same Old Story of Russian Retreat From New Chwang

Washington, July 28.—The British Government yesterday sent instructions to its Ambassador at St. Petersburg to protest energetically against the sinking of the Russian steamer Knight Commander by the Russian Vladivostok squadron. The fullest indemnity will be demanded, and unless this is promptly acceded to measures will be taken to follow up the diplomatic demands. The State Department at Washington has received from the Portland Milling Company, of Oregon, through Senator J. H. Mitchell, a formal protest against the seizure of American goods by the Russian navy. The protest is because of the seizure of a cargo of flour on the steamer Arabia.

The New Chwang correspondent of a London paper says the Japanese are not pursuing the Russians, as they desire to co-operate with the First Army in a decisive battle between Hai Cheng and Liao Yang, which, even in the opinion of Russian officers, will result in a Russian defeat and will terminate the campaign. Refugees arriving at Cne Foo tell of the destruction of two Russian torpedo boat destroyers by the Japanese fleet.

### When Visiting the World's Fair, Ride on the Ferris Wheel.

The great Expositions held during the last fifteen years have produced two marvelous examples of engineering and constructing ability. One of these, the Eiffel Tower, was designed and built by a Frenchman at Paris for the exposition of 1889; the other, the Ferris wheel, was designed and built by the late Geo. W. G. Ferris for the World's Columbian Exposition at Chicago, in 1893.

Paris in 1903 held a great exposition in 1903, but failed to produce any feature to take the place of the Eiffel Tower. In America, St. Louis, in 1904, planned and produced the greatest exposition the world has ever seen. Scores of attempts were made to invent something more wonderful and more attractive than the Ferris Wheel, but as Paris failed to outdo her Eiffel Tower, so did St. Louis fail to equal her famed Ferris Wheel of the World's Columbian Exposition of 1893. Arrangements were made accordingly to bring the Ferris Wheel to the Louisiana Purchase Exposition, and it was given a location near the geographical center of the grounds.

The problem of moving the Ferris Wheel from Chicago to St. Louis was stupendous—4,200 tons of material, including the 70-ton axle, besides engines, boilers and derricks and falsework, had to be transported. One hundred and fifty-five freight cars were required to move this material.

A brief resume of the dimensions and description of the Ferris Wheel may be interesting. The wheel is built upon the bicycle principle, with immense tension spokes 215-16 inches in diameter. The wheel is 250 feet in diameter and stands 264 feet high. In reality it is two wheels securely braced together. Between the outer rims of these wheels the 11-ton cars are suspended on 6 1/2 inch pins, 6 feet long. These cars are 13 feet long, 9 feet high, and will carry 60 persons each. There are 36 of them, so the total capacity of the wheel is 2,160 persons.

At several times in its history the wheel has been filled to its capacity. The axle of the wheel is a solid steel forging, 32 inches in diameter and 45 feet long. The solid bronze bearings upon which it rests are each 6 feet long and contain nearly two tons of metal. The weight of the wheel is carried upon two four post towers, 6 feet square on top and 40x50 feet at the base. There is turn room for solid concrete and steel beam pillars which are carried down to solid rock, 26 feet below the surface of the ground.

The towers are anchored to the bottom of the mass of concrete by 246 iron eyebars, so that the wheel is perfectly safe, even in the most violent storms. The side vibration of the wheel in an 80 mile an hour wind is less than half an inch. The wheel is run by a double reversing engine with cylinders 30x48 in., capable of developing 2,000 horse power. The power is applied through a series of cogs to a sprocket chain which engages wide cogs on the outside of each rim.

Two revolutions are given each passenger, and the time required is from 20 to 30 minutes. The view during this half-hour ride is most interesting and instructive. Gradually, as the majestic and mighty wheel rolls one up higher and higher, a grand panorama unfolds itself to view. A fifty million dollar Exposition in all its grandeur is before you. The location of the wheel in the center of the fair is interesting and an opportunity to thoroughly familiarize themselves with the lay of the grounds and get a better general idea of the fair than they could by days of tramping. The Cascades, the Plateau of States, all the big buildings, the Pike, Foreign Hall, the Art Building, Foreign Buildings, Philippine Reservation and the Air Ship Exhibition, in fact, every point of interest in the grounds can be seen from the big wheel. In addition, one gets a view of St. Louis, the Mississippi River, and the beautiful forests, hills and dales for fifty miles around. At night, the view of the interesting and instructive grounds is simply magnificent. Eye has not seen nor ear heard of a more striking spectacle than the night view of the great exposition from the top of the Ferris Wheel.

Hundreds of thousands of incandescent lights bring the outlines of all the buildings in bold relief. The Festival Hall and the Palace of States are flooded in turn with white, red and green lights, making a striking and very beautiful effect. The best point to view the grand illumination is from the Ferris Wheel.

When you come to the fair, do not fail to ride upon it.

## To Our Subscribers, Friends and Patron

We wish to announce to you that we now have the fire alarm completed, and ready for your use and protection.

The original plan of this system was conceived by the Mr. Geo. E. Randle, with the idea in mind that if it could be arranged, it would make a perfect fire alarm service. We immed the matter up and perfected his plans, until we are pleased to after going to the heavy extra expense of installing same, we pared to furnish our patrons with the most modern fire alarm the world to-day. In fact it is the only system of its kind in the States.

When you pull down number 5 and push the button, you immed notify Central Fire Headquarters, Fire Chief and Forbes' Eng by the throwing of a little switch at Central also notify every residence, enabling each and every interested party to get the cation of the fire without a moment's delay.

We also wish to announce that in addition to the perfect fire system furnished our patrons, that we also have the contract for ishing the Police service and have their 'phones all placed and working order. This gives each and every one of our patrons a fire and police protection, which is in itself worth the five cents that you pay us for your residence 'phone.

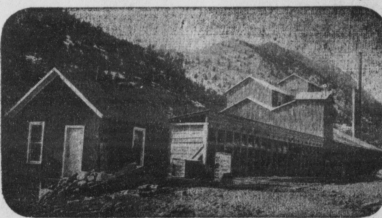

Respectfully yours,  
THE HOPKINSVILLE HOME TELEPHONE CO.  
Per R. E. Cooper, Pres.

If you have friends who have no phone and have one, we shall appreciate it if you will tell them the advantage of our service. Our interests are mutual and it is our desire to give subscriber the most modern service possible.

**The Alpine Mill.**

duced \$2,360,000,000 in gold, Mexico at least \$181,000,000 and probably twice as much, and British North America \$142,000,000.

The dividends paid by gold and silver mines are greater than the dividends paid by all the banks in this country, and the dividends paid by copper mines are greater than the dividends in the country.

There certainly are good gold and silver mines yet in this country, and the new cyanide process for treating low-grade ores has made it possible to treat gold and silver ore which was formerly passed over as worthless, at a good profit.

In summing up the situation we believe that if an investor is reasonably sure that the people connected with a mining company are honest, that the money invested will be used for the purpose specified, and that the management will be conservative, he may feel that he has a reasonable chance to get a good return on his investment.

MINING INVESTMENTS PROFITABLE

Less money is lost proportionately in mining, says Cecil Rhodes than in any other business in the world, and larger fortunes are made in investments of mining stocks than in any other business on earth.

identically and consequently with the art of money getting, it is noticeable that the trend of investment is along the lines of mining and its kindred industries.

"There are reasons for this, and the wonder is that they have not been more apparent to investors means to the past. But it was never the policy of masters of finance to teach the people that money could be made in mining business than in any other. Bankers and others, whose interests it is to secure for themselves and their business money which would be diverted to the more profitable channel of mining if the public should realize what they themselves know well, that the only chance for riches of moderate means to riches is along the lines of judicious investments, will not enlighten the public.

"A few hundred dollars might lie in a savings bank for half a century at 3 or 5 per cent. interest, and at the end of that time the depositor would not be much richer than when he first placed it there. But there are thousands of instances where an investment of a few hundred dollars in mining stock has placed the investor in the in-
